The art is not good. The game ok.. ud83dudc6fAnother Triumphud83dudc6f. I love hentai and anime and I really liked this game. I advise authors to release a few more and add more levels.. Like this game, I am really enjoying these "Hentai" labeled games. Like this one, you only get around 10 puzzles but the game play is often fun and a remembrance from when I was a kid. As the quality of this game's pictures aren't nearly as good as the previous games, it just goes to show how I truly enjoy the simple and casual gameplay over anything else. For a dollar or two, .yeah, I enjoyed it and I know of someone else that may enjoy it when they get home today.. Really like the artwork, probably more than any other Hentai game have played recently. Thing is there's not much of it, ten pictures maybe an 11th that's locked behind a level I can't beat. The gameplay is pretty poor, goes from three cups moving slowly to five that I really can't track for the last two waves. I like the Artwork, but there's not much of it and can't crack the game, would have loved to recommend this but its almost impossible to play and almost half of the people who buy it can't complete it. That's ridiculous for a casual game.
