Some model makers specialize in 'scale models' that allow an easier grasp of the whole design or for portability of the model to a trade show or an architect or client's office.. A model maker is a professional who creates a three-dimensional representation of a design or concept.. Most products in use and in development today first take form as a model This 'model' may be an exacting duplicate of the future design or a simple mock-up of the general shape or concept.

1. [proxxon manual for creative model makers pdf](#)

Mock-ups are generally used as part of the design process to help convey each new iteration.
